

# SCOUTS BADGES & PROGRAMS

New Jersey Audubon  
Lorrimer Sanctuary

## NATURE PROGRAMS FOR SCOUT TROOPS, PACKS, AND DENS.

### WOLF

#### PAWS ON THE PATH

Scouts will learn how to properly prepare and dress for an outdoor hike and pack a bag with essential items for hiking. We will take a 1-mile hike around the nature sanctuary to see and observe local birds and animals.

#### FINDING YOUR WAY

Learning how to read maps and use compasses has helped explorers, travelers and scouts find their way. We will make a map and learn how to use a compass while putting our skills to the test on an outdoor orienteering course.

### BEAR

#### FUR, FEATHERS & FERNS

Bear scouts will explore the world of mammals, birds, and plants in this adventure. During your visit, you'll look for wildlife and birds and use a magnifying glass to examine nature more closely.

#### A BEAR GOES FISHING

\*varies by season, special appointment only\*  
We will cover the basics from gear, bait and lures to proper fish handling and conservation ethics. Fishing is a great way to enjoy and appreciate nature! Call for more details.

### WEBELO

#### INTO THE WILD

Venture "into the wild" on our 14-acre wildlife sanctuary as we learn about mammals, birds, reptiles, amphibians and insects that live all around us. See different habitats and investigate the food chains in each. Learn how tools like binoculars help us study!

#### INTO THE WOODS

Trees and plants are important parts of the inter-connected life on earth. Trees are part of the forest habitat and also provide us with valuable resources. During this exploration, we'll visit a forest, learn to identify trees, and discover why it's important to take care of this resource.

### PLANNING YOUR VISIT

#### WHAT TO EXPECT

Programs are **90 minutes** long.

All programs have an outdoor component, so please have your scouts dressed for the outdoors.

There must be one chaperone per 7 scouts.

Additional siblings/scouts will be an add-on cost. No cost for chaperones/adults.
